

# The Pasteur - Paris University International Doctoral Program

## An international PhD program in Life Sciences and Biomedicine

### Call for 2016

An exceptional PhD program in the exciting, dynamic and interactive research environment of the Institut Pasteur in collaboration with Parisian universities. The PhD program is for students holding a Master's degree (or equivalent) in science, medicine or related fields from a non-French university.

- › Improving public health and welfare through scientific discovery
- › Quest for knowledge beyond the frontiers of biological sciences
- › Satisfying scientific curiosity in a dynamic research environment
- › State-of-the-art technology platforms
- › A three years stipend covering living expenses and social benefits
- › Assistance with housing and visas
- › Tailored courses and training to high proficiency
- › Close scientific supervision
- › Interactive environment for collaborations
- › Dedicated student club for science and social activities

For more information and submission of applications : [www.pasteur.fr/en/doctoralpositions](http://www.pasteur.fr/en/doctoralpositions)

- First step : find a host laboratory. Available labs and their projects will be posted on the web site and may be contacted from September 4 to November 6.
- Second step : submit complete application in collaboration with host lab by November 20.
- Third step : short-listed candidates will be invited for an interview at the Institut Pasteur in February, 2016, with decisions shortly thereafter.
